

The Greatest Secret in Modern History

UFOs and a Solution to the Environmental and Energy Crisis

The Cover-up: UFOs

Mercury & Gemini Astronaut, Colonel Gordon Cooper

A saucer flew right over [us] and landed out on the dry lakebed. [The cameramen] went out with their cameras towards the UFO. I had a chance to hold [the film] up to the window to look at it. Good close-up shots. There was no doubt in my mind that it was made someplace other than on this earth.---Video interview. Transcribed in *Disclosure*, Steven M. Greer, MD., ed., pp. 226 - 227.

FAA Division Chief of Accidents and Investigations, John Callahan

The UFO was bouncing around the 747....Well, I've been involved in a lot of cover-ups with the FAA. When we gave the presentation to the Reagan staff, they had all those people swear that this never happened. But they never had me swear it never happened. I've got a videotape. I've got the voice tape. I've got the reports that were filed.---Video interview and *Disclosure*, pp. 80 - 85.

Russian Air Force, Space Communications Center, General Vasily Alexeyev

They came up with a table with pictures of all the shapes of UFOs that had ever been recorded – about fifty....The study of UFOs may reveal some new forms of energy to us, or at least bring us closer to a solution.—*Disclosure*, pp. 345 - 347.

Former Director of CIA, Admiral R.H. Hillenkoetter

Behind the scenes, high-ranking Air Force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense. To hide the facts, the Air Force has silenced its personnel.—*The New York Times*, Sunday, February 28, 1960: "Air Force Order on 'Saucers' Cited," p. L30. See also *Disclosure*, p. 58.

Corporate Manager of Fairchild Industries, Spokesperson for Wernher Von Braun, Dr. Carol Rosin

Von Braun [rocket science pioneer] told me [in 1974] the reasons for space-based weaponry were all based on a lie. He said the strategy was that first the Russians, then the terrorists are going to be considered the enemy. The next enemy was asteroids. "The last card is the alien card, and all of it is a lie."....I was at a meeting in Fairchild Industries in the War Room. The conversation [was] about how they were going to antagonize these enemies, and there was going to be a Gulf War. Now this is 1977!—pp. 255 - 259.

More Cover-up: Advanced Technologies Developed from UFOs

US Army, General Stephen Lovekin

Colonel Holomon brought out a piece of what appeared to be metallic debris. He explained that this was material that had come from a New Mexico crash in 1947 of an extraterrestrial craft....I got an opportunity to travel with the President [Eisenhower]. He was very, very interested in what made [the UFOs] go....But Eisenhower got sold out. He realized that the [study of these technologies] was not going to be in the best hands. That was a real concern.—Video interview and *Disclosure*, pp. 230 - 236.

US Marine Corps, Captain Bill Uhouse

The [flight] simulator was for the extraterrestrial craft they had—a 30 meter one that crashed in Kingman, Arizona, back in 1953. I was inside the actual alien craft for a start-up. There are probably two or three dozen [flying saucers] that we built.—pp. 384, 385.

US Army, Ph.D. in Nuclear Engineering, Colonel Thomas E. Bearden

Probably 50 inventors have invented [virtually cost-free energy systems]. If we use these systems, we can clean up this biosphere. But the entire structure of science, industry, and the patent office are against you....The more powerful the agency, the more they resort not only to legal, but to extra-legal means to suppress their competition.—*Disclosure*, pp. 534–542. Disclosure Project, Founder and Director, Steven M. Greer, M.D.

The situation is so dire that senior Joint Chiefs of Staff leaders in the Pentagon who I have briefed have no more access to such projects than any other civilian—unless they are on the 'inside.' The government is really quite outside the loop. We have insiders and scientists who can prove that we do in fact possess energy generation systems capable of completely and permanently replacing all forms of currently used energy generation and transportation systems. Every single person who is concerned about the environment and the human future should call for urgent hearings to allow these technologies to be disclosed, declassified, and safely applied.—*Disclosure*, pp. 14, 15, 567.
